

National charity which supports disabled and disadvantaged people to prepare for work, find jobs and live more independently

**Partnerships**

**WE ARE MACMILLAN. CANCER SUPPORT** *Third sector leaders in cancer support...*

*...partnering leaders in employment services...*

**The Christie NHS** *...working with one of Europe's leading cancer centres*  
NHS Foundation Trust

**Services to be offered**

Shaw Trust vocational advisors will support Cancer patients across the 4 levels of support required.

At level 1, vocational specialists will review all the available written and online resources available to collate a resource library and tool kit of the most relevant, useful and up to date literature available.

At level 2, specialist vocational team will provide vocational rehab training to key personnel at The Christie to up skill their clinical teams in dealing with vocational queries. The team will also be available to support the clinical staff with any queries they may have on an ongoing basis. The objective will be to enable the clinical teams to provide immediate vocational support and sign posting to patients and carers.

At Level 3, advisors will arrange a telephone or a face to face full vocational assessment, support and return to work plan. This plan will be tailored to individual circumstances and patient choice as to the type and level of support and intervention required.

At Level 4, specialist intervention can be provided either by advisors, by specialist network of partners, or by other specialist providers depending on the needs of the patient.

**Key features**

Vocational Rehabilitation tools and techniques developed in both an Insurance and Corporate market, transferred and adapted to Secondary Care setting for this pilot
